In the folder that you want to run your program (so it contains the test case files),

Type "cmd" and just press enter as necessary to get the shortcut created.

×

← 🗔 Create Shortcut

What item would you like to create a shortcut for?

This wizard helps you to create shortcuts to local or network programs, files, folders, computers, or Internet addresses.
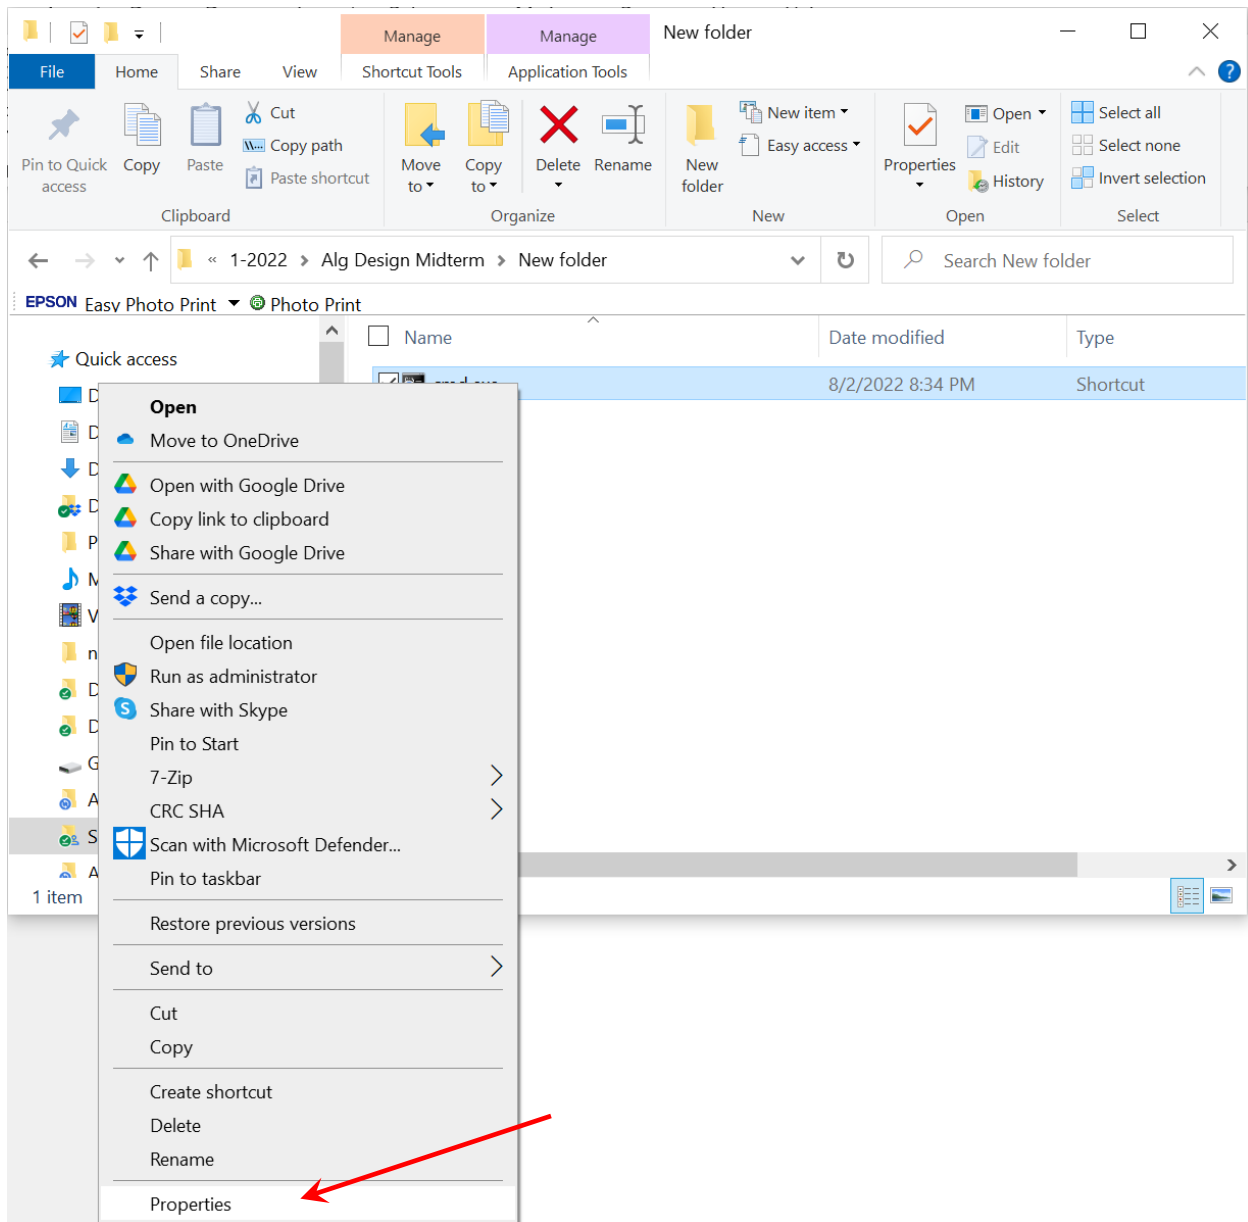

Type the location of the item:

cmd| Browse...
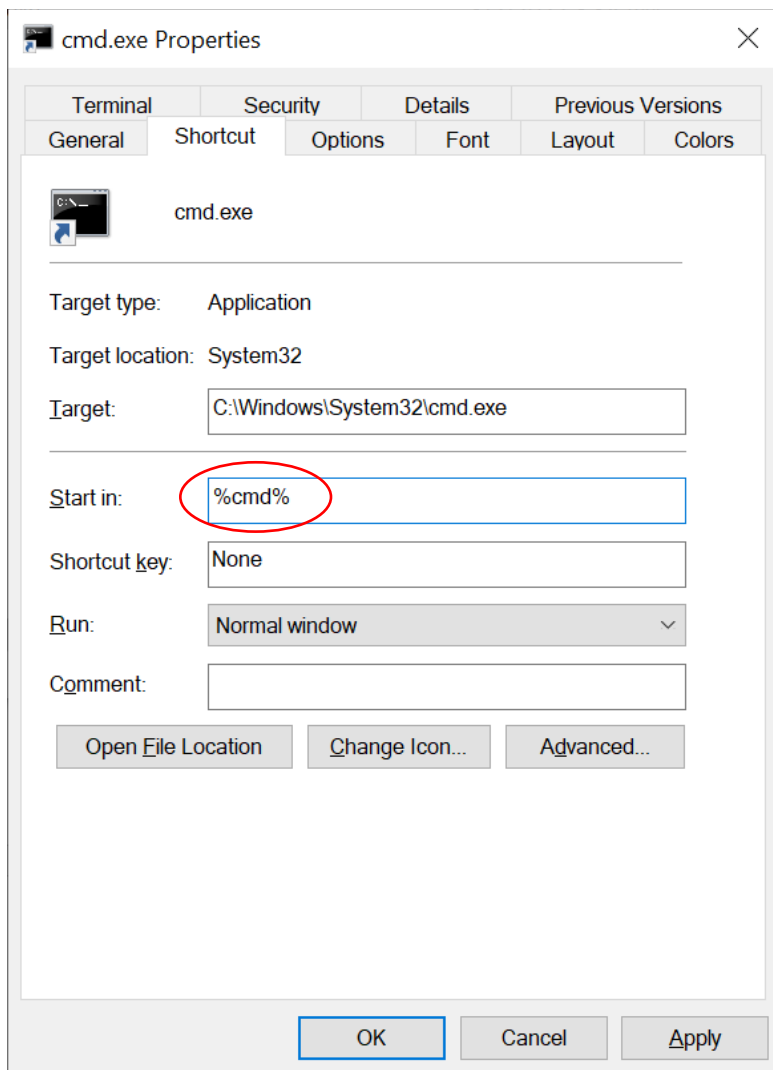

Click Next to continue.

Next   Cancel

Then, right click on the cmd.exe shortcut and open property window.

Set the "Start in" property to %cmd% as shown in the picture below.

Press OK, and that's it!.
